

Emergency Backup

Secure - Off-Site - Peace of Mind

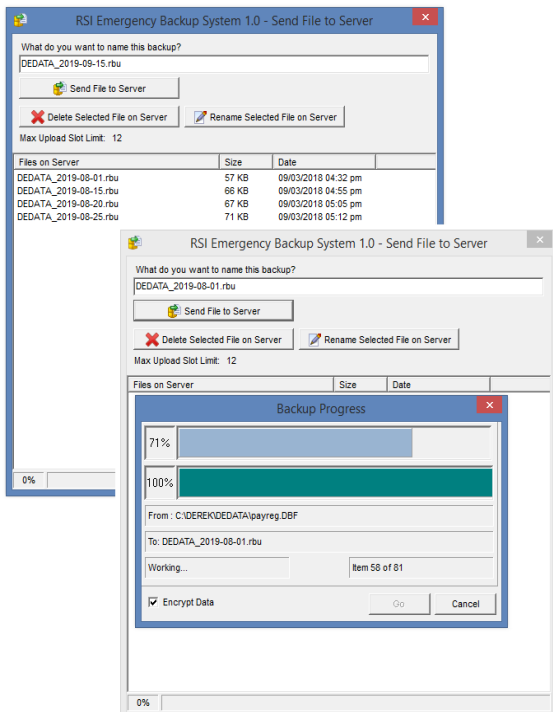

12 Stored Backups Per Year

\$500 / year

FREE When Current On The Service Pack

Roughneck's Emergency Backup System (EBS) is a program that protects your entire Roughneck Data Directory on an off-site server located at Roughneck Systems, via the Internet.

EBS is the safest way to avoid losing vital Derek data in the event of flooding, fire or any other major catastrophe at your location. Even if you backup and store your data every day onto a Flash drive, thumb drive, CD or any other device, EBS provides much more security for your data, as it is located here at our office.

Top 5 Benefits of EBS

- Safety
- Ease of Access
- Ease of Recovery
- Convenience
- Affordability

Should your home or office be burglarized and your computer and backup drives taken, having a backup on our server will prevent the loss of any of your valuable data. You can simply restore your data to your new computer.

If you ever need help troubleshooting an issue, with your permission, we can access your data easily and look for any problems.
